## 🔍 Critical Issues Found and Fixed

## 1. Navigation Menu Visibility Problem ❌ → ✅

**Issue**: Menu items were hard to see due to color contrast issues **Files Affected**: views/partials/navigation.ejs

**Problems:**

- Text colors were using undefined CSS classes (text-ruxchai-grey)
- Hover states had poor contrast
- Active states were not properly highlighted

**Fixes Applied:**

```ejs
ejs

<!-- OLD (Poor visibility) -->
<a href="/" class="text-ruxchai-grey hover:bg-blue-50">

<!-- NEW (High visibility) -->
<a href="/" class="text-gray-700 hover:bg-blue-50 hover:text-blue-600">
```

   - Views were relying on undefined CSS variables
   - Fixed by using standard Tailwind classes

**Fixes Applied:**

```ejs

```

```html
<!-- Navigation Active State -->
<!-- OLD -->
<a class="bg-ruxchai-blue text-white">

<!-- NEW -->
<a class="bg-blue-600 text-white">
